

1. Croatian neuroradiology meeting with international participation

Split
April, 11 – 13th, 2014.

Location: Radisson Blu, Put Trstenika 19, Split

Organizer:

Neuroradiology Section
of the Croatian Society of Radiology
Croatian Medical Association

Organizing Committee

Marko Radoš, Section President
Goran Pavliša, Vice-president
David Ozretić, Secretary general
Ante Buča, Local organizer
Krešimir Dolić, Local organizer

Contact

Scientific part

Goran Pavliša

Final programme

Friday, April 11th

18,00h Registration

Saturday, April 12th (morning)

9,00h Introduction

9,10-10,40h Refresher lectures (15 min lectures)

Moderators: prof.dr.sc. M.Radoš, prof.dr.sc. A.Buča

- Dolić K. Traumatic brain injury
- Antulov R. White matter tract anatomy
- Zadravec D. MRI of multiple sclerosis
- Špero M. Degenerative, exogenous toxic and metabolic diseases
- Pečarič Meglič N. Imaging in epilepsy patients
- Pavliša G. Imaging of CNS neoplasms

10,40-11h Coffee break

11-13h Invited lectures (20 min lectures)

Moderators: prof.dr.sc. E.T.Tali, prof.dr.sc. M. Thurnher

- Tali E.T. CNS infections
- Thurnher M. Advanced imaging of spine disorders
- Šurlan Popovič K. CT and MRI perfusion imaging in head and neck region
- Radoš M. fMRI in clinical practice at 3T
- Szikora I. Arterio-venous malformations – diagnosis and treatment

13-14,30h Lunch

Final programme

Saturday, April 12th (afternoon)

14,30- 17,00h Scientific session (8 min lectures + 2 min discussion)

Moderators: doc.dr.sc. D. Zadravec, dr.sc. R. Antulov

1. Lovrić Kojundžić S. Neuroradiological evaluation of congenital brain anomalies
2. Pećina HI, Sajko T, Hećimović H, Tripalo Bratoš A, Bedek D, Gregurić, Zadravec D. Our experience in diagnostic and therapeutic management of pharmaco-resistant epilepsy
3. Glavina G. Magnetic resonance in diagnostics of central nervous system tumours
4. Špero M. Spontaneous intracranial hypotension - our experience
5. Plascak J, Makaruha K. FESS Imaging - The role of MDCT
6. Kolić K. The role of perfusion MSCT in early diagnostics of ischaemic stroke
7. Dodig D. Characterization, demographic and casuistic assessment of superficial brain hemorrhages

15,40-16,00h Coffee break

Moderators: doc.dr.sc. T. Šeruga, dr. D. Ozretić

1. Šeruga T, Jevšek M. Endovascular treatment of complex unruptured aneurysms of supraclinoid segments of internal carotid artery with flow diverter devices
2. Šeruga T, Jevšek M, Sauperl H. Treatment of giant dissecting aneurysm of V3 segment of vertebral artery by direct ultrasound guided puncture and parent artery occlusion
3. Jeromel M. Percutaneous vertebroplasty for pathological vertebral compression fractures
4. Dragičević D. A case of acquired right-sided subclavian steal syndrome successfully treated with stenting using brachial approach
5. Kalousek V, Čulo B, Zadravec D. Imaging and endovascular treatment of two challenging cases
6. Gardijan D, Ozretić D, Radoš M, Pavliša G. Embolization of brain pial A-V fistula in 33 year old man

20,00h Dinner

Final programme

Sunday, April 13th

9,00 Round table: Ischaemic stroke

Participants: Chapot R, Dragičević D, Jeromel M, Jevšek M, Ozretić D, Poljaković Z, Radoš M, Szikora I, Šeruga T, Švigelj V.

Chapot R. Acute ischemic stroke management

Anterior circulation stroke: Švigelj V. Neurological treatment

Jeromel M. Endovascular treatment

10,30-10,50 Coffee break

Posterior circulation stroke: Poljaković Z. Neurological treatment

Radoš M, Ozretić D. Endovascular treatment

12-12,30

Meeting of Neuroradiology Section of CSR

Closing remarks
